How to cook a birthday cake

Ingredients
125 grams of butter.
125 grams of sugar.
2 eggs.
125 grams of flour.
2 spoonfuls of honey.

Prepare the cake like this:
Heat the oven to 180C.
Grease a cake tin with some butter.
Mix the butter and the sugar in a bowl.
Beat in the eggs and add them to the mixture.
Take the flour and put it in the bowl using a spoon.
Pour the mixture into the cake tin.
Spread out with a spatula.
Bake for 25 minutes until an inserted knife comes out clean.
Take it out of the tin and let it cool.
You can decorate it with some chocolate, jam, or coconut.
And of course, put the candles on the cake.

Happy birthday!
